B Major, a top-rated local business, is investigating its database and found that the layout of its website was outdated and not user-friendly. Due to this, B Major is planning to redesign its website to improve customer experience and attract more visitors. The redesign process is expected to take about 6 weeks, and B Major is collaborating with a local web design agency to ensure the project is completed on time and within budget. The company is also considering incorporating social media integration to enhance its online presence.

C. It is unlikely that B Major has a business location in the Amazon rainforest. The Amazon rainforest is a vast area with numerous small businesses, and it is highly unlikely that any one company would have a business location in such a large and remote area. Additionally, B Major appears to be a well-established business located in a major city, and it is unlikely that it would operate in the Amazon rainforest.

D. B Major is not a public company, so its financial information is not publicly available. The financial statement for B Major's 2020 fiscal year is not available, as it has not been filed with the appropriate regulatory body. It is also not clear whether B Major is a private company or a limited liability company, which could affect its financial reporting requirements.

E. B Major's Facebook group has over 10,000 members, indicating that it has a strong and active online community. The group is actively engaging with members and posting updates and news about B Major. The group's活跃度和参与度表明它是一个强大和活跃的在线社区。
